Store Actions

Pull products as specified in the table above. Check in store location and all areas of the store where this product may be displayed or stored, including adjacent shelves in case product was pushed behind another product. If applicable, compare the amount of the product removed against the CGO on hand inventory to ensure you have accounted for all packages.

PRODUCT DISPOSITION INSTRUCTIONS:

Step 1. Select "RECALLED ITEMS" in MobileScan device.

Step 2. Scan product.

Step 3. Send to reclaim as "RECALLED ITEMS".

Step 4. No credit will be given unless the recalled product is returned to reclaim under "RECALLED ITEMS".
