Store Actions

Pull products as specified in the table above. Check in store location and all areas of the store where this product may be displayed or stored, including adjacent shelves in case product was pushed behind another product. If applicable, compare the amount of the product removed against the CGO on hand inventory to ensure you have accounted for all packages.

PRODUCT DISPOSITION INSTRUCTIONS:

1. Pull only the lot listed
2. Destroy the product
3. Enter product counts in Task Manager. Credit will be issued based on these counts.
